

New Features on iHub:

Wait list toggle option -

This toggle option allows you waitlist a fax to the according doctor and location. With the addition of categorizing to a specific group and adding referral reasons.

Add to Waitlist

Are you sure you want to add "Mary, Elizabeth (OHIP: 4558317295)" to the waitlist?

Select Doctor (Optional)

Category (Optional)

Referral Reason (Optional)

Preferred Clinic (Optional)

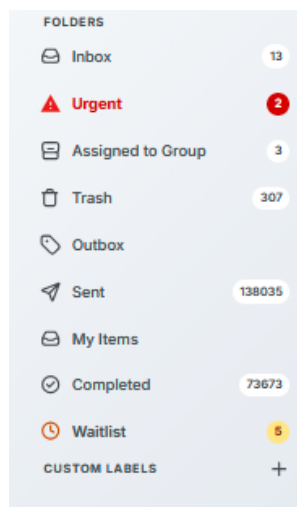

Cancel

Confirm

After assigning the fax to the correct doctor, this fax will automatically be moved from the main inbox into the **waitlist section**.

Waitlist - Waitlist

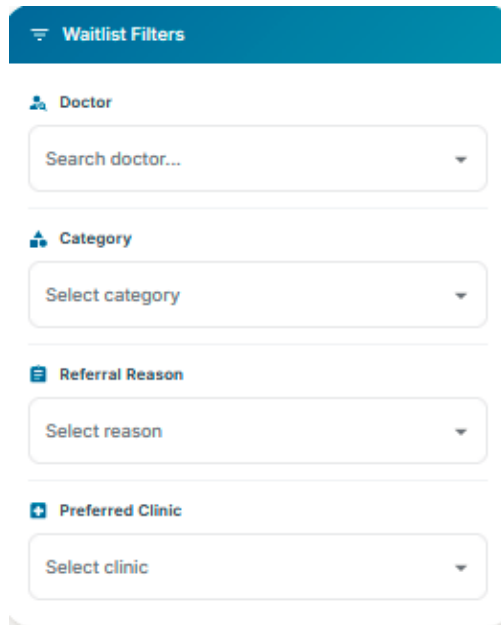

This is the waitlist section where the waitlisted faxes are sent to, this section can be found at the bottom in the left side.

Waitlist Filter -

 Waitlist Filters

When you go on the waitlisted section, that's where you view all waitlisted faxes with the addition of filtering the waitlisted fax according to how you want to view the faxes.

The image shows a 'Waitlist Filters' section with a blue header. Below the header are four filter categories, each with a dropdown menu:

- Doctor**: A dropdown menu with the placeholder text 'Search doctor...'.
- Category**: A dropdown menu with the placeholder text 'Select category'.
- Referral Reason**: A dropdown menu with the placeholder text 'Select reason'.
- Preferred Clinic**: A dropdown menu with the placeholder text 'Select clinic'.

Urgent toggle option - Urgent

This urgent toggle option allows to differentiate between a non-urgent fax and urgent. This option quickly allows you to move the fax from the main inbox to the **urgent section**.

Urgent - Urgent 2

This is the urgent section where you will have the ability to quickly view all urgent faxes. This can be found right underneath the inbox.

 AI Analyze

AI Analyze -

The AI Analyze feature enables incoming faxes to be instantly categorized and understood. It can match faxes to existing or incoming patients, identify the document type and fax type, add appointment tag and summarize the content of the fax, including whether it is urgent or non-urgent.
